英語落語 EIGO RAKUGO

Austria Tour 2025

A *u:japan culture* event co-organized by the Japan Information and Culture Centre, Embassy of Japan in Austria

Description:

Rakugo is a traditional comic storytelling of Japan with 400 years of history and is still enjoyed among people of all ages. Until recently, this art was performed only in Japanese but due to a growing interest in Japanese pop culture worldwide as well as rakugo themed manga/animations, we started to perform rakugo in different languages about a decade ago and toured around the world. In this stage, we present you with an authentic comic theatre by combining rakugo and shamisen, a traditional three-stringed instrument known for its loud, powerful sound, fast-paced rhythms, and expressive improvisational style, often compared to jazz. We will also include a traditional street performance called bamboo mat show in which a performer creates all kinds of shapes such as animals, popular items as well as architecture along with a song using only a bamboo shade. We believe this will be the very first English rakugo show in Austria.

Friday
2025-11-21
16¹⁵~17⁴⁵

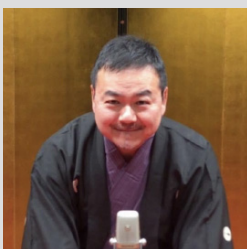

Time & Venue:

Friday, 21. November 2025
16:15-17:45
Hörsaal C2 lecture hall
Universitätscampus, Hof 2
Spitalgasse 2, 1090 Vienna
